

INTRODUCTION

Welcome to the Caps of the World, a unique register featuring competition caps from all full member countries of International Lifesaving. This is the first and only international register of its kind.

The register highlights the 'national' cap for each full member country and lists the clubs and teams in alphabetical order.

Caps can be searched by country or by colour groupings, assisting referees, media and the public in identifying the country, club or team during competition.

The register is based on Beach/Ocean competition including IRBs and Surf Boats. In most countries, the colours and designs are traditional. The colours and designs of all Caps included are those of the countries, clubs and teams named.

Pool competition caps are not included as they are not used for identification purposes.

Please enjoy the colours.
